

CTF-04

CTF-04 is a bitumen/glass fibre faced tapered PIR system used in warm roof applications to create suitable falls under any compatible bitumen based torch on membrane system. This system provides excellent thermal performance and available with falls of 1:60, 1:80 and 1:120 (subject to quantity).

Features

- CFC, HFC and HCFC-free
- Ozone Depletion Potential of zero
- Global Warming Potential <5
- BRE Green Guide A generic rating
- Easy handling and installation

Technical Data

U Values

Each scheme is individually designed to achieve the required U value. Contact our technical department for further information.

Installation

Must be installed in accordance with manufacturer's recommendations. Contact our technical department for further information and compatibility.

Technical Data

Thermal Conductivity	PIR (bitumen faced) – 0.024-0.027 W/mK
Compressive Strength	PIR 150 kPa @ 10% compression
Board Size	1200 x 600mm (flat packers) 1200 x 1200mm (tapered)
Thickness	Designed to achieve the required U value
Fixing	Fully bonded with non-solvent PU adhesive Mechanically fixed with thermally broken fasteners
